

Safety Data Sheet

according to the United Nations GHS (Rev. 9, 2021) Issue date: 3/6/2023 Revision date: 7/11/2024 Version: 1.3

SECTION 1: Identification

1.1. GHS Product identifier

Product form	: Substance
Trade name	: Mowital® B
Chemical name	: polyvinyl butyral
Type of product	: Polymer
CAS-No.	: 68648-78-2 or 63148-65-2
Product code	: 200002

1.2. Other means of identification

No additional information available

1.3. Recommended use of the chemical and restrictions on use

Recommended use

Industrial use
 Temporary binder for ceramics
 Adhesives
 Coating
 3d printing
 Printing inks

1.4. Supplier's details

Manufacturer/Supplier

Kuraray Europe GmbH Philipp-Reis-Str. 4 DE– 65795 Hattersheim am Main Germany T +49 (0)69 305 85300 product-safety@kuraray.com

Email competent person

product-safety@kuraray.com

1.5. Emergency phone number

Emergency number

: +65-3158-6734 (Access Code: 334674)

Importer

Kuraray Asia Pacific Pte. Ltd.

#10-01/02 Raffles City Tower

250 North Bridge Road

Singapore 179101

T +65-6337-4123

SECTION 2: Hazard identification 2.1. Classification of the substance or mixture **Classification according to the United Nations GHS** Not classified Adverse physicochemical, human health and : To our knowledge, this product does not present any particular risk, provided it is handled in environmental effects accordance with good occupational hygiene and safety practice 2.2. GHS Label elements, including precautionary statements Labelling according to the United Nations GHS No labelling applicable 2.3. Other hazards which do not result in classification Other hazards not contributing to the classification Fine particles may form explosive mixtures with air. Prevent dust accumulation to minimize : explosion hazard. This material does not ignite easily; however, feasible precautions against dust explosion are recommended.

Safety Data Sheet

according to the United Nations GHS (Rev. 9, 2021)

SECTION 3: Composition/information on ingredients

3.1. Substances			
Chemical name CAS-No. Product identifiers: See section 1.1	: polyvinyl butyral : 68648-78-2 or 63148-65-2		
Name	Product identifier	%	Classification according to the United Nations GHS
polyvinyl butyral (Main constituent)	CAS-No.: 63148-65-2	> 97.5	Not classified
water (Impurity)	CAS-No.: 7732-18-5 EC-No.: 231-791-2	< 2.4	Not classified
butyraldehyde (Impurity)	CAS-No.: 123-72-8 EC-No.: 204-646-6 EC Index-No.: 605-006-00-2	< 0.05	Flammable liquids, Category 2, H225 Serious eye damage/eye irritation, Category 2B, H320 Hazardous to the aquatic environment – Acute Hazard, Category 3, H402
sodium chloride (Impurity)	CAS-No.: 7647-14-5 EC-No.: 231-598-3	< 0.05	Acute toxicity (oral), Category 5, H303

Full text of H-statements: see section 16

3.2. Mixtures

Not applicable

SECTION 4: First-aid measures	
4.1. Description of necessary first-aid me	easures
First-aid measures general	 In all cases of doubt, or when symptoms persist, seek medical attention. Contact with dust: Irritating to eyes and mucous membranes.
First-aid measures after inhalation	: Remove person to fresh air and keep comfortable for breathing.
First-aid measures after skin contact	: Wash skin with plenty of water.
First-aid measures after eye contact	: Rinse eyes with water as a precaution.
First-aid measures after ingestion	: Call a poison center or a doctor if you feel unwell.
4.2. Most important symptoms/effects, a	cute and delayed
Symptoms/effects Potential adverse human health effects and symptoms	 Irritation of the respiratory tract, skin, eyes and mucous membranes possible. Dust may irritate the respiratory tract, skin and eyes.

4.3. Indication of immediate medical attention and special treatment needed, if necessary

Treat symptomatically.

SECTION 5: Fire-fighting measures	
5.1. Suitable extinguishing media	
Suitable extinguishing media	: Use extinguishing media appropriate for surrounding fire. Water haze. Foam. Dry powder. Carbon dioxide.
Unsuitable extinguishing media	: Do not use a solid water stream as it may scatter and spread fire.

Safety Data Sheet

according to the United Nations GHS (Rev. 9, 2021)

5.2. Specific hazards arising from the chemi	cal
	 Could burn but do not ignite readily. The product may form dust and build up electrostatic charges, which may produce an electric spark (ignition source). Proper grounding procedures to avoid static electricity should be followed. Toxic fumes may be released. Carbon dioxide. Carbon monoxide.
5.3. Special protective actions for fire-fighte	
J.J. Opecial protective actions for me-ngine	10
Protection during firefighting	: Do not attempt to take action without suitable protective equipment. Self-contained breathing apparatus. Complete protective clothing.
Other information	: Do not allow run-off from fire fighting to enter drains or water courses. Disposal must be done according to official regulations. Fine dust dispersed in air may ignite. Use standard firefighting procedures and consider the hazards of other involved materials. Move containers from fire area if you can do so without risk. The product is not flammable.

SECTION 6: Accidental release measures		
6.1. Personal precautions, protective equipment and emergency procedures		
General measures	: Avoid contact with skin, eyes and clothing. Concerning personal protective equipment to use, see section 8.	
6.1.1. For non-emergency personnel		
Emergency procedures	: Ventilate spillage area.	
6.1.2. For emergency responders		
Protective equipment	: Do not attempt to take action without suitable protective equipment. For further information refer to section 8: "Exposure controls/personal protection".	

6.2. Environmental precautions

Avoid release to the environment. Environmental manager must be informed of all releases.

6.3. Methods and materials for containment and cleaning up	
Methods for cleaning up	: Take up mechanically (sweeping, shovelling) and collect in suitable container for disposal. Avoid dust formation. Collect dust or particulates using a vacuum cleaner with a HEPA filter.
Other information	: Disposal must be done according to official regulations.

SECTION 7: Handling and storage	
7.1. Precautions for safe handling	
Precautions for safe handling	: Ensure good ventilation of the work station. Wear personal protective equipment. Minimize dust generation/release and accumulation. Avoid creating or spreading dust. The material must not be deposited in large quantities, especially on horizontal surfaces, as it could become released into the air from there, form flammable dust clouds and contribute to secondary explosions. Any unavoidable deposit of dust must be regularly removed. Prevent build-up of electrostatic charges (e.g, by grounding). Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Provide appropriate exhaust ventilation at places of dust forming. Use only in well-ventilated areas. Observe recognised industrial hygiene measures. Avoid prolonged and repeated contact with skin.
Technical measures	 Provide adequate precautions, such as electrical grounding and bonding, or inert atmospheres.
Hygiene measures	: Do not eat, drink or smoke when using this product. Always wash hands after handling the product.
7.2. Conditions for safe storage, including	g any incompatibilities
Storage conditions	: Store in a well-ventilated place. Keep cool. Keep container tightly closed. Store in original tightly closed container.
Incompatible materials	: Keep away from strong acids and strong oxidizers.

Safety Data Sheet

according to the United Nations GHS (Rev. 9, 2021)

SECTION 8: Exposure controls/personal protection 8.1. Control parameters No additional information available 8.2. Appropriate engineering controls Appropriate engineering controls : Ensure good ventilation of the work station. Environmental exposure controls : Avoid release to the environment. 8.3. Individual protection measures, such as personal protective equipment (PPE) Hand protection : In case of repeated or prolonged contact wear gloves. ISO 374-1. Choosing the proper glove is a decision that depends not only on the type of material, but also on other quality features, which differ for each manufacturer. Please follow the instructions related to the permeability and the penetration time provided by the manufacturer. Gloves must be replaced after each use and whenever signs of wear or perforation appear Туре Material Permeation Thickness (mm) Penetration Standard EN ISO 374 Nitrile rubber Nitrile rubber 6 (> 480 minutes) 0,12 Eye protection : Sealed safety goggles. ISO 16321-1 Skin and body protection : Wear suitable protective clothing. EN ISO 13688 In case of insufficient ventilation, wear suitable respiratory equipment. Dust production: dust Respiratory protection : mask with filter type P2. EN 143. Short term exposure. Breathing equipment is only to be used in order to handle the residual risk of short term jobs if all other risk minimizing measures have been carried out e.g. retention and/or local exhaust

8.4. Exposure limit values for the other components

No additional information available

SECTION 9: Physical and chemical properties

9.1. Basic physical and chemical properties

Physical state	: Solid
Appearance	: Powder
Colour	: colourless.
Odour	: odourless.
Odour threshold	: Not available
Melting point	: Not available
Freezing point	: Not applicable
Boiling point	: Not available
Flammability	: Could burn but do not ignite readily.
Lower explosion limit	: Not applicable
Upper explosion limit	: Not applicable
Flash point	: Not applicable
Auto-ignition temperature	: Not applicable.
Decomposition temperature	: Not available
рН	: Not available
pH solution	: Not available
Viscosity, kinematic (calculated value) (40 °C)	: Not applicable
Partition coefficient n-octanol/water (Log Kow)	: Not available
Vapour pressure	: Not applicable
Vapour pressure at 50°C	: Not available
Density	: Not available
Relative density	: Not specifically applicable
Relative vapour density at 20°C	: Not applicable
Relative gas density	: Not specifically applicable
Solubility	: Not available
Viscosity, dynamic	: Not applicable
Particle size	: Not available

Safety Data Sheet

according to the United Nations GHS (Rev. 9, 2021)

9.2. Data relevant with regard to physical hazard classes (supplemental)

Explosive properties	: Product is not explosive
Oxidising properties	: Non oxidizing
Relative evaporation rate (butylacetate=1)	: Not applicable
VOC content	: < 0.1 %
Additional information	: Vicat softening temperature 50 - 63 °C DIN EN ISO 306

SECTION 10: Stability and reactivity

10.1. Reactivity

The product is non-reactive under normal conditions of use, storage and transport.

10.2. Chemical stability

Stable under normal conditions.

10.3. Possibility of hazardous reactions

No dangerous reactions known under normal conditions of use.

10.4. Conditions to avoid

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Avoid creating or spreading dust.

10.5. Incompatible materials

Strong acids. Strong oxidizing agent.

10.6. Hazardous decomposition products

Under normal conditions of storage and use, hazardous decomposition products should not be produced.

SECTION 11: Toxicological information

11.1. Information on toxicological effects

Acute toxicity (oral)	: Not classified (Based on available data, the classification criteria are not met)
Acute toxicity (dermal)	: Not classified (Based on available data, the classification criteria are not met)
Acute toxicity (inhalation)	: Not classified (Based on available data, the classification criteria are not met)
Skin corrosion/irritation	: Not classified (Based on available data, the classification criteria are not met)
Serious eye damage/irritation	: Not classified (Based on available data, the classification criteria are not met)
Respiratory or skin sensitisation	: Not classified (Based on available data, the classification criteria are not met)
Germ cell mutagenicity	: Not classified (Based on available data, the classification criteria are not met)
Carcinogenicity	: Not classified (Based on available data, the classification criteria are not met)
Reproductive toxicity	: Not classified (Based on available data, the classification criteria are not met)
STOT-single exposure	: Not classified (Based on available data, the classification criteria are not met)
STOT-repeated exposure	: Not classified (Based on available data, the classification criteria are not met)
Aspiration hazard	: Not classified
Potential adverse human health effects and symptoms	: Dust may irritate the respiratory tract, skin and eyes.

SECTION 12: Ecological information

12.1. Toxicity

Hazardous to the aquatic environment, short-term	: Not classified (Based on available data, the classification criteria are not met)
(acute)	
Hazardous to the aquatic environment, long-term	: Not classified (Based on available data, the classification criteria are not met)
(chronic)	

Safety Data Sheet

according to the United Nations GHS (Rev. 9, 2021)

12.2. Persistence and degradability		
polyvinyl butyral (68648-78-2 or 63148-65-2)		
Persistence and degradability	No additional information available	
butyraldehyde (123-72-8)		
Persistence and degradability	Readily biodegradable.	
Biodegradation	46 – 57 % (5 d; (OECD 301C method))	
sodium chloride (7647-14-5)		
Persistence and degradability	Not applicable.	
12.3. Bioaccumulative potential		
polyvinyl butyral (68648-78-2 or 63148-65-2)		
Bioaccumulative potential	No additional information available	
butyraldehyde (123-72-8)		
Bioconcentration factor (BCF REACH)	3.162 (calculated value)	
Partition coefficient n-octanol/water (Log Kow)	1.3 (20 °C; pH 4.4 - 4.7; (OECD 107 method))	
sodium chloride (7647-14-5)		
Partition coefficient n-octanol/water (Log Kow)	-3	
12.4. Mobility in soil		
polyvinyl butyral (68648-78-2 or 63148-65-2)		
Mobility in soil	No additional information available	
butyraldehyde (123-72-8)		
Surface tension	70 mN/m (20 °C; 1 g/L; (OECD 115 method))	
sodium chloride (7647-14-5)		
Ecology - soil	Not applicable.	
12.5. Other adverse effects		
	Not classified No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.	

SECTION 13: Disposal considerations	
13.1. Disposal methods	
Waste treatment methods	: Disposal must be done according to official regulations. Do not discharge into drains or the environment. Do not dispose of with domestic waste.
Product/Packaging disposal recommendations	: Recycle or dispose of in compliance with current legislation.

SECTION 14: Transport information

In accordance with UN RTDG / IMDG / IATA

Safety Data Sheet

according to the United Nations GHS (Rev. 9, 2021)

UN RTDG	IMDG	ΙΑΤΑ
14.1. UN number		•
